

## Pillar IV: Development of Agricultural Infrastructure

### Policy statement

Invest more resources in the development of infrastructure to support agricultural production, value addition, marketing and trade.

### Strategic Objectives

- SO.4.1: To develop, rehabilitate and modernize agricultural infrastructure;
- SO.4.2: To increase access to appropriate low-cost agricultural technologies;
- SO.4.3: To reduce energy and water costs, increase production and use of renewable energy across the agricultural value chain;
- SO.4.4: To promote climate-smart agricultural infrastructure development
